

1. K LOVE is the only Christian FM station that plays music that the whole family can enjoy 24 hours a day. It is nice not to have to censor and to know that your children are receiving God's message and even singing along. 2. There is no other station like KLOVE in our area. Interfering with this station would impact a large number of people. We need to have a station that can reach us in a time of trouble and in times of joy. The word of God is healing. We sometimes receive a message that can turn our day around, to send us in the direction that God has chosen vs choosing a path of sin. 3. You can see that our world in general has a declining sense of morals from TV, to radio, to newspapers, and in our everyday life. If you take away the positive influences on the radio, our children, will choose another station to listen to that fills them full of ideas of sex, drugs, and violence. Yes it is the job of the parent to monitor what our children do. Having a positive radio experience with your children, discussing issues that were on the radio, and even having a prayer after a song is the most influential experience. Children look up to their parents. If we can have an experience and a relationship with God that is fun, it will draw our children even closer. Even good old George Bush believes in the power of God. Please do not interfere with God's work. Kristi
